equity and
inclusion

Talent attraction,
development and
well-being

Prosperity

Financial inclusion of
individuals and small
businesses

Planet

Operational
environmental footprint

Environmentally
focused solutions

Governance principles

Responsible and secure use of data

Ethical behavior

Driving climate action throughout green supply chain

Mastercard committed to net-zero emission by **2040**

Internal CDP Supply Chain Program

1,5° Supply Chain Leaders initiative

Product initiatives for sustainability

Mastercard will remove first-use, PVC plastics from payment cards on its network by 2028

Priceless Planet Green coalition for impact

Through our network we are uniting partners to create a movement with the initial objective to plant 100 million trees in 5 years. We will partner with issuers, merchants, and corporations, to coordinate an effort that connects with consumers and has a direct positive impact on climate change.

First objective:

Plant
100 million trees
in 5 years

ESG proposition to SME via 3 key pillars

Digital solutions

Digitalization offers the potential to make SMEs more productive and to reduce their environmental impact.

Cybersecurity

Cyber security tools for SMEs with digital tools to protect against cybersecurity risks and challenges

Sustainability

ESG tools to support SME with sustainability flows and transition to green economy via reporting and access to capital
